Citizenship

Italian, Brazilian

Location

Zaragoza, Spain

Expertise & Experience

Cloud & Data Platform Engineering Leader with 20+ years of experience delivering scalable, secure, and cost-effective infrastructure in cloud-native and hybrid environments. Proven leadership across cloud architecture, DevOps culture, FinOps optimization, and data platform development. Expert in AWS, Kubernetes, Terraform, and CI/CD practices. Known for cross-functional collaboration and mentoring engineering teams to build high-impact data systems and platforms. Reduced cloud spend by 40% while improving performance and availability at Wallbox. Passionate about building systems that enable robust analytics, automation, and innovation at scale.

Professional Experiences

AI Engineer, Platform Engineer, Database Expert at Wallbox Chargers (Remote, Apr/2021 - present)

- Led platform engineering and database initiatives, managing cloud and on-prem infrastructure spanning backend, embedded systems, and analytics workloads.
- Designed and implemented scalable, secure infrastructure using AWS, Kubernetes, and Terraform.
- Drove CI/CD initiatives for platform teams, increasing release speed and system reliability.
- Introduced FinOps principles across the platform, achieving 40%+ reduction in AWS cloud expenditure.
- Partnered with data and analytics teams to ensure performance, availability, and observability across the stack.

Senior Data Engineer at Exoticca.com (Barcelona, Spain, Mar/2020 - Mar/2021)

- Led the design and implementation of a cloud-based pricing prediction pipeline on AWS, using Python and ML tooling.
- Managed ELT pipelines and cloud data infrastructure supporting analytics and BI functions.
- Enabled self-service analytics by building streamlined tooling and governance mechanisms.
- Partnered with product and data stakeholders to build scalable and cost-efficient systems.

Senior Data Engineer at Zinio International (Barcelona, Spain, Oct/2019 - Mar/2020)

- Oversaw AWS-based data infrastructure for global digital publishing services.
- Managed high-volume ETL operations, supporting large-scale business analytics workflows.
- Tuned performance and reliability of hundreds of PostgreSQL and MySQL database

Senior Data Engineer at Weta Digital (Wellington, New Zealand, 2017 to Set/2019)

- Managed petabyte-scale data systems supporting VFX rendering workloads.
- Led capacity planning and deployment of high-throughput database services across the studio.
- Collaborated closely with rendering and infrastructure teams to optimize platform performance.

WAK Technology Consulting (Remote, 2014 to 2017)

- Architected and developed distributed systems, biometric authentication platforms, and embedded solutions.
- Integrated cloud-native data pipelines and edge computing for security and IoT applications.

Founder & Consultant - Augusto Bott Consulting (Remote, 2010 to 2014)

- Delivered infrastructure design, systems integration, and database optimization for diverse clients.
- Built full-stack solutions from backend systems to mobile integrations and media delivery pipelines.

Senior DBA, Team Leader at The Pythian Group (Remote, 2007 to 2010)

- Led global DBA team for managed services supporting high-scale MySQL environments.
- Specialized in database performance, scalability, and 24/7 incident resolution.

IT Manager, Senior DBA at Catho Online (Brazil, 2005 to 2007)

- Oversaw IT infrastructure, data centers, and systems operations for Brazil's top HR platform.
- Drove system optimization, scalability initiatives, and database performance enhancements.

Earlier Roles: Support Analyst, Software Developer, Instructor (Various / 1998 - 2004)

- Delivered Linux and MySQL training, infrastructure support, and web development projects.
- Taught professional training courses on open-source systems and performance optimization.

Tech Skills

Cloud & DevOps: AWS (EC2, RDS, ECS, EKS), GCP, Kubernetes, Terraform, Docker, CI/CD

Data & Infrastructure: PostgreSQL, MySQL, Redshift, MongoDB, Redis, Kafka, Kinesis, Snowflake

Platform & Architecture: Infrastructure as Code (IaC), System Design, Cloud Governance, FinOps

Programming & Automation: Python, Golang, Shell Scripting, SQL Optimization

Monitoring & Ops: Prometheus, ELK/EFK Stack, Grafana, CloudWatch

Leadership: Technical Strategy, Team Mentorship, Cross-Functional Collaboration

Security & Governance: Access Management, Data Governance, Compliance-Driven Design

Languages

- **Portuguese** (mother tongue)
- **English** (fluent speaking, reading and writing)
- **Spanish** (speaking and reading)

Education & Certification

- **MySQL Certified Cluster Administrator**, DBA, Core Professional (2004–2008)
- **Conectiva/Mandriva Linux Certification** (2003–2004)
- **Studied Computer Science and Information Systems**, PUCRS (1997–2008)
- **Studied Civil Engineering**, UFRGS (1995–1996)

Speaking Engagements (Selected)

- 2024 – BCN Engineering Meetups: *The DevOps DBA*
- 2023 – Devops Barcelona: *The Role of a DBA on the DevOps Culture*
- 2009 – MySQL Performance Conference: *Scaling MySQL Efficiently*

Projects & Open Source Activities

- **DroidSSHD** – Lightweight SSH server for Android ([GitHub](#))
- **Identifica** – Biometric fingerprint matching with MySQL/MariaDB UDF ([GitHub](#))
- **Alt-F / Tomato VLAN** – Custom firmware enhancements for NAS and routers
- **GAUPsurvey** – GIS-enabled survey platform forked from LimeSurvey
